Explosion-protected LED light fitting

e855F L20

**[Item no. : 85500 0002]**

General product description

Compact explosion-protected LED light fitting with central locking system for zone 1/21. Glass fibre reinforced polyester housing, frosted cover made of polycarbonate with silicone gasket. Steel reflector, varnished, with encapsulated LED modules and protective covers, hinged and removable. Encapsulated ECG with overvoltage, overload and short circuit protection.

General product benefits

- extremely robust light fitting with high material thickness of housing and cover
- comfortable central locking system for fast connection and component exchange
- innovative LED encapsulation with high transmission factor for least loss of light
- homogenous illumination due to frosted cover for comfortable perception of light and brilliant glare limitation
- protective cover on the LED modules for protection against mechanical and electrostatic damage
- high colour rendering index CRI≥80, according to the workplace guidelines suitable for nearly all plant locations
- sustainable, interchangeable components

Applications

Hazardous areas zone 1 (gas) and zone 21 (dust), general lighting of small rooms, above doors or information/escape route lighting (with pictrogram), light fitting is not suitable for use in areas with permanently high humiditiy and short operation time, e.g. sewage plants and rainwater retention basins
