#### General product description

Explosion-protected LED floodlight ExFOCO XL of the GreenLine series with outstanding sustainable product design for zone 2/22. Die-cast aluminium housing and glass frame, powder-coated. Glass frame with tempered safety glass pane, hinged, with silicone gasket. LED modules with highly efficient optics, direct beam, Multi-Layer-Technology, with direct connection to the housing for perfect thermal management. ECG with overvoltage, overload, short circuit protection as well as temperature monitoring of the LED modules. Mounting bracket for pole, wall and ceiling mounting, swivel range 180°.

#### General product benefits

- efficient substitute for conventional floodlights up to HIT 400W
- extremely high service life even at maximum admissible ambient temperature
- perfect thermal management due to direct connection of the LED modules to the housing, large cooling surface, excellent thermal conductivity
- uniform illumination due to Multi-Layer-Technology, i.e. every individual LED illuminates the whole surface, the light distribution curves of the LED are overlapping
- no light emission into the upper half space, ULOR=0
- eco-friendly; versions dimmable to 10% and with color temperature up to 3,000 K comply with Dark Sky requirements
- sustainable, interchangeable components
- future proof by using standardised Zhaga LED modules
- GreenLine luminaire, outstanding sustainable design

#### Applications

hazardous areas zone 2 (gas) and zone 22 (dust), outdoor and indoor areas, e.g. storage areas, construction sites, transport routes, loading stations, port areas, halls etc., light fitting is not suitable for use in areas with permanently high humidity and short operation time, e.g. sewage plants and rainwater retention basins
